

NASCENT IODINE

Miracle Products patented Nascent Iodine is a unique atomic form of iodine, derived from rock crystal that is rapidly absorbed and used by every cell in the body.

Iodine is needed by the entire body to support health and healing...far beyond its critical role in supporting metabolism and thyroid health.

- ◆ Supports thyroid function and regulates hormones
- ◆ Increases metabolism
- ◆ Boosts energy levels
- ◆ Supports and maintains detoxification
- ◆ Supports immune system function
- ◆ Fights infections (natural antiseptic)
- ◆ Protects cells and tissues
- ◆ Supports brain function and increases IQ
- ◆ And many more other healthy benefits

Every Cell In the Body Contains and Utilizes Iodine

- ◆ Thyroid (50 mg) 3%
- ◆ Fat (700 mg) and Muscle (650 mg) 70%
- ◆ Skin (if deficient you cannot sweat out toxins and generally have dry skin) 20%
- ◆ The body can hold up to 1500 mg
- ◆ The Thyroid can only hold up to 50 mg
- ◆ Lack of iodine can affect your I.Q. as much as 15 points

It is known that a lack of iodine causes a spectrum of disorders: goitre, hypothyroidism, various auto-immune diseases, diabetes, bronchial asthma, lung disease, dermatological problems, Candida and other microbes, irritable bowel, fibromyalgia, chronic fatigue syndrome, hyperactive disorder, attention deficit disorder, mental retardation, cretinism, and fibrocystic breast disease. Iodine deficiency can cause breast cancer, uterine cancer, ovarian cancer, prostate cancer, testicular cancer, thyroid cancer, and lung cancer.

“Iodine deficiency we get is partly a result of toxicity from Fluoride and Bromine. Bread has ten times more Bromine in it than it used to and the sources of Fluorine are nearly ubiquitous today. ***So who does not need Iodine?*** I find that nearly everyone needs more than they are getting.” – Dr. Garry F. Gordon

Iodine Is Nature's Antibiotic

Though it kills 90 percent of bacteria on the skin within 90 seconds, its use as an antibiotic has been ignored. Iodine exhibits activity against bacteria, moulds, yeasts, protozoa, and viruses; indeed, of all antiseptic preparations suitable for direct use on humans and animals and upon tissues, only iodine is capable of killing all classes of pathogens: gram-positive and gram-negative bacteria,

mycobacterium, fungi, yeasts, viruses and protozoa. Most bacteria are killed within 15 to 30 seconds of contact.

“Iodine is by far the best antibiotic, antiviral and antiseptic of all time”. - Dr. David Derry

When we use concentrated nutritional substances as antibiotics we are doing a lot more than confronting hostile pathogens. We are supporting total body physiology as well as elimination of heavy metals and other toxic poisons.

Misunderstood Nutrient

"Iodine is the most misunderstood nutrient. After 12 years of practicing medicine, I can say that it is impossible to achieve your optimal health if you do not have adequate iodine levels. I have yet to see any item that is more important for promoting health than iodine." - Dr. David Brownstein

Dr. David Brownstein’s Cancer Research Shows:

Iodine in the body helps regulate cell division – especially in breast, uterine, ovary and prostate glands. Iodine is like the referee that helps cells know when they should stop dividing and die as they would in a normal life cycle. Without iodine, cells can begin to multiply rampantly as a cancer.

Some cancers (and fibroids) have been shown to reverse when iodine deficiency is addressed, disintegrating from the centre of the tumour out. Why? The iodine begins to do its work of regulating the cells’ division and life cycle. The cells begin to die off as they should and the cancer cannot sustain itself.

Sixty patients with a variety of cancers were studied. All sixty patients were found to have serious iodine deficiency. - Dr. Jay Abrahams

If iodine is so crucial in the body, why hasn’t there been more research studies published? Dr. Brownstein believes that because iodine cannot be patented there is no incentive for the drug companies to perform the research.

Iodine is a Pillar against Infections

Iodine offers a serious and potent replacement for much of the antibiotics that are literally destroying people's lives and can be used safely with children. Parents, who chose not to dose their kids with dangerous vaccines will be glad to know that iodine can be very effective against a host of viral infections that medical officials insist threaten children. Nature and evolution have given us an important nutrient to control pathogenic life forms and we should use it and trust it to protect us in ways that antibiotics can't. - Dr. Mark A. Sircus AC., OMD, DM

Even Safe for Children - Nascent Iodine, though more expensive, actually tastes and feels good while going down!

“I talked a few months ago to a missionary in Africa who was using iodine (in the atomic or detoxified form) to successfully treat malaria. My own children have recently had bad coughs and it is iodine, not dangerous over-the-counter cough medicines I reach for.” - Dr. Mark Sircus

“There is a world of difference between using an antibiotic (literally an anti-life substance) and an antibiotic, antiviral and antifungal substance like iodine, which is life serving because it is a basic and most necessary nutritional substance.” - Dr. Mark Sircus

Dr. Derry says that iodine is effective "for standard pathogens such as Staphylococcus, but also iodine has the broadest range of action, fewest side effects and no development of bacterial resistance."

Dr. Brownstein's Recommendation

Dr. Brownstein asserts that significant benefits begin to accrue at 12 mg per day (with elemental iodine); which he describes as the optimal established daily dose for most people. However, Dr. Brownstein's overall recommendation of 12 mg to 50 mg of iodine daily can be considered a relatively high dosage, considering the unique potency of the Nascent Iodine form. We therefore suggest a dosage between 1 mg (2.5 drops) and 8 mg (20 drops) per day. Again note that Nascent Iodine is more effectively absorbed and utilized than other forms of iodine (e.g., potassium iodide), including iodine-containing foods such as seaweeds.

Nascent Iodine is Much More Effectively Absorbed and Utilized Than Other Forms of Iodine:

We suggest starting at a low dosage and increase gradually. You might begin with 1-8 drops of Nascent Iodine and then increase your dose from that starting point. Users typically report excellent results taking a daily dose of 1 mg (2.5 drops) to 8 mg (20 drops) of Nascent Iodine. 10 drops is 4 mg of iodine. Your needs may vary.

Miracle Products Nascent Iodine Ingredients & Purity

The chemical purity is greater than or equal to 99.8%. This patented formula is derived from rock crystal. Iodine that is sourced from seaweed can contain impurities found in the ocean such as arsenic and/or bromine in quantities that are not desirable or healthy.

Miracle Products offers 100% Nascent Iodine in a base of organic grain alcohol

A 30 ml bottle of Miracle Products Nascent Iodine contains approximately 1100 drops; at 10 drops per day will last for over 3 months, compared to other sources of iodine which last only one month; makes our product very economical!

Directions for Using Miracle Products Nascent Iodine:

If you are a first time user of iodine begin with 1 drop for 4-7 days, increase to 2 drops for another 4-7 days, and then increase to 3 drops as follows:

1 - 3 drops in 30 ml of water, swirl in mouth then swallow, followed by more water. Take on an empty stomach 30 minutes before or 1 hour after meals, medications and/or supplements (vitamin C will oxidise iodine rendering it less useful). Repeat early afternoon if necessary. Dividing dosages ensures that Nascent Iodine remains active longer in the body.

Taking it after 4 PM could raise your energy levels and keep you awake at night. It is recommended to take before breakfast, before lunch and then again before 4

Doctors Suggested use: 1 - 10 drops (or more) daily, or as directed by a health care professional. One drop provides 400 mcg (micrograms) of iodine.

Water Purification for Travelling, Camping or Improving Water Purity

Nascent Iodine purifies water because of its natural antiseptic properties. Add 4-5 drops per litre of water. Let it stand for 30 minutes in water that is clear and 60 minutes if the water is cloudy.
